

# Instruction for MOOC Education

1) Go to <https://researcheracademy.elsevier.com/>

2) Register with email

### 3) Choose any module that you like. I selected the “Funding Hacks for Researchers”

The screenshot shows a web browser window displaying the Elsevier Researcher Academy website. The page title is "Funding Hacks for Researchers". The main content area features a video player with a white silhouette of a person standing on a stack of books, holding a blue book. The video player includes a play button, a progress bar, and a volume icon. Below the video player are social media sharing options (Save, Share, Comment) and a "About this video" link. To the right of the video player, there is a "UP NEXT" section with three video thumbnails: "Successful research grant applications – getting it right", "Discover how metrics can boost funding and networking opportunities", and "How to secure funding - ECR edition". Below this is a "Downloads" section with two items: "Successful grant writing" and "Funding hacks for researchers slides". The website header includes the "Researcher Academy" logo and navigation links for "Learn", "Career path", and "Blog". The user's name "Nachi Charde" is visible in the top right corner. The browser's address bar shows the URL "https://researcheracademy.elsevier.com/research-preparation/funding/funding-hacks-researchers".

### 4) Once completed, your certificate will be ready electronically.
